

## ASSEMBLY INSTRUCTIONS

### ***8300 SERIES TRACK***

#### ***Ripple-Fold Draperies Configured as a Panel***

Cut track to length and insert one end cap. Next, insert all of the Ripple-Fold carriers required for the drapery. Leave one extra carrier more than needed, pop the tab out of the top, and attach this tab to the left / right hand baton master- insert into track. Lastly, insert final end cap. Attach the wall mount track brackets to the top of the track, leaving 24" to 36" between each one. Once all of the wall brackets are installed, hold the entire track system up to the wall and mark the holes you need to drill. Remove wall brackets from the track and attach them to the wall. Once the brackets are mounted, re-attach the track to the brackets. Hang draperies and check to ensure smooth operation.

For smoother operation, lightly spray the inside of the track with an aerosol silicone lubricant. Depending upon environment, clean and re-lubricate as necessary.

#### ***Ripple-Fold Draperies Configured as a Pair***

Cut track to length and insert one end cap. Next, insert all of the Ripple-Fold carriers required for the right side of the paired draperies. Leave one extra carrier more than needed, pop the tab out of the top, and attach this tab to the right hand baton master- insert into track. Do the same for the left hand baton master, however, slide the master in first followed by all of the carriers required for the left panel. Lastly, insert final end cap. Attach the wall mount track brackets to the top of the track, leaving 24" to 36" between each one. Once all of the wall brackets are installed, hold the entire track system up to the wall and mark the holes you need to drill. Remove wall brackets from the track and attach them to the wall. Once the brackets are mounted, re-attach the track to the brackets. Hang draperies and check to ensure smooth operation.

For smoother operation, lightly spray the inside of the track with an aerosol silicone lubricant. Depending upon environment, clean and re-lubricate as necessary.
